# WHAT MAKES US BOSS®

## **EXPERIENCE:**

---

Since 1893 (yes - we're old), Boss has been THE trusted brand in work gloves. As the oldest glove company in the United States, we've developed the infrastructure and relationships needed to make sure our customers have the tools and protection to get the job done. We use our 125+ years of experience to develop and create the best possible work gloves in the industry and will continue to do so for the next 125 years!

## **INNOVATION:**

---

We understand that working environments continue to evolve and it is our priority to ensure our products continue to evolve as well. We consistently strive to innovate and seek unrivaled technologies, materials, and designs to help create the best safety gloves on the market while still providing the comfort and function you come to expect. With our innovative culture, be assured we are tirelessly working (it's just a figure of speech - we never get tired) to bring you the best innovative gloves available.

## **VERSATILITY:**

---

While we started off creating working gloves for the average farmer, our customers' needs have grown, and they demand higher quality and more features to take on any task at hand (pun intended). This is why we have developed an extensive offering of premium work gloves that can be used for any project you plan to tackle. Whether you need gloves to use in your garage or backyard, or to work on a farm or construction site, we have the gloves that will keep you safe and performing at your best!

# COATED

Coated gloves are popular because of their tactile sensitivity and form-fitting design. The coating provides you with better grip and resistance to abrasion.

Coated gloves can be multi-purpose to protect your hands from dirt and a variety of workplace hazards. The ergonomic construction of the seamless string knit shells conform better to the natural shape of the hand for greater flexibility and comfort. The shells are then dipped into coatings that enhance your grip in dry, wet, or oily environments.

# GRIP PROTECT

Item #B32051 Sizes Available: L-XL

WITH MICROARMOR

The Boss® MicroArmor™ latex glove gives you the protection you need when space is tight. This glove features a comfortable and lightweight nylon shell with a low profile TPR on the back of hand to keep your hands safe from unwanted bumps and scrapes. We have added a foam latex coating on the palm to provide excellent grip in wet or dry conditions. There is also a knit wrist to ensure for easy on/off while keeping out dirt and debris.

⚠ P65

## TACTILE GRIP

Item #B33141 Sizes Available: L-XL ⚠ P65

- High visibility material is easier to see ensuring you stay visible and safe on the job.
- Touch screen capabilities keep you connected while on the job.
- Polyurethane coating allows for increased dexterity and grip.

Available in single or 5 pack

## TACTILE GRIP

Item #B31101-L5P Sizes Available: L-XL ⚠ P65

- High visibility material is easier to see ensuring you stay visible and safe on the job.
- Foam nitrile coating is highly elastic, and provides enhanced grip in wet and oily conditions.
- Knit wrist prevents unwanted dirt and debris from entering the glove.

Available in single or 5 pack

## TACTILE CR4

WITH ANSI A4 CUT RATING

Item #B33111 Sizes Available: L ⚠ P65

- Minimizes cuts and lacerations while maximizing flexibility. Ideal for handling glass, machining, and metal stamping.
- High Performance Polyethylene (HPPE) shell provides increased cut and abrasion resistance.
- Polyurethane coating allows for increased dexterity and grip.

## TACTILE GRIP

Item #B31181 Sizes Available: L-XL ⚠ P65

- Dipped and dotted nitrile palm and fingers provides enhanced grip in wet and oily conditions.

# PROTECT

Item #B52061 Sizes Available: M-XL

WITH IMPACT PROTECTION

The Boss® Protect glove is loaded with features to keep you at max performance. To start, it has an Ax Suede™ palm with reinforced polyurethane patches in high wear areas. The back of hand is constructed from 4-way stretch spandex that is breathable and provides increased dexterity. The back also includes a honeycomb pattern knuckle strap to help keep you protected from impacts and unwanted bumps/scrapes.

We have also included a hook and loop wrist closure to provide a secure fit while keeping your hands free of dirt and debris. Finally, the touchscreen capabilities on the index finger will help keep you connected while on the job.

## JOB MASTER

Item #B51111 Sizes Available: L-XL ⚠ P65

- Pigskin leather palm that is pliable, yet provides added durability and protection against abrasions.
- Breathable 4-way stretch spandex back helps reduce hand fatigue and keeps hands cool.
- Hook and loop wrist keeps your hands free of dirt and debris while providing a perfect fit and feel.

## JOB MASTER

Item #B81051 Sizes Available: L-XL ⚠ P65 AQUA ARMOR®

- Aqua Armor® technology is a water resistant treatment applied to the leather which helps repel moisture from the surface, keeping your hands dry.
- Cowhide leather palm and knuckle strap provides added protection from unwanted bumps and scrapes.
- Hook and loop wrist keeps your hands free of dirt and debris while providing a perfect fit and feel.

## JOB MASTER

Item #B51091 Sizes Available: L-XL ⚠ P65

- Spandex back helps reduce hand fatigue and keeps hands cool.
- Split cowhide leather is durable and abrasion resistant without sacrificing comfort.
- Hook and loop wrist keeps your hands free of dirt and debris while providing a perfect fit and feel.

# LEATHER

Leather provides outstanding comfort, durability, abrasion resistance, and is cost effective. It is also naturally heat resistant. Leather comes in a variety of types and grades, and these factors are what determine how durable, breathable, abrasion-resistant, moisture-resistant and supple/soft your gloves will be.

# DURABLE COWHIDE

Item #B81041 Sizes Available: M-2XL

WITH  AQUA ARMOR®

The AquaArmor® durable cowhide gloves are constructed using grain cowhide leather that provides long lasting strength and durability. The added AquaArmor® technology will ensure your hands stay dry when working in wet conditions. This glove also features a slip-on cuff to allow for easy on/off while keeping unwanted dirt and debris out of the glove.

 P65

# DISPOSABLE

Disposable gloves create a barrier between hands and the objects being handled to keep hands clean and protected. They also keep oils and dirt on your hands from transferring to the objects being held or inspected. Disposable, single-use gloves are thrown away after each task to prevent cross contamination. Thinner gloves offer higher dexterity and better touch sensitivity, while thicker offer more protection for hands. General purpose gloves are worn for common tasks such as cleaning and inspection.

From working in the garden to changing the oil or cleaning the house, disposable gloves have become an everyday household tool. Keeping hands clean and free from skin irritants caused by cleaners, detergents, and even home hair dye kits is helpful for everyone.

**Ax Suede™** is a lightweight engineered knit made from polyester microfibers that has been designed to optimize performance without sacrificing durability. This material provides the highest performing palm suede on the market giving you enhanced dexterity, protection, and sweat management.

**Aqua Armor®** technology is a water resistant treatment applied to the leather during the tanning process which helps repel water and moisture from the surface of the glove prohibiting it from absorbing, keeping your hands dry.

**COOLMAX® CORE** technology was specifically designed to transport moisture away from the hands to keep the wearer cool and dry while you're working, helping to optimize your performance

**MicroArmor™** technology gives you the protection you need when space is tight. This slim, light-weight technology cushions the back of your hand from bang-ups, knuckle-knocks and scuff-scrapes making this ideal for tasks in tight spaces.

Ripstop is a tear resistant fabric that is durable and tough. This fabric is constructed by weaving in stronger nylon thread using a reinforcement technique which makes it more resistant to snags, tears, and rips.

Ax Suede™ is registered by Matmarket, LLC
