Solarcore™ is the newest innovation in insulation technology. Solarcore is constructed with aerogel, a synthetic material composed of over 90% air that provides a lighter and thinner insulation with the lowest thermal conductivity of any solid. Instead of bulky down or synthetic fibers Solarcore’s aerogel technology uses self-contained, microscopic air pockets that trap air and deliver superior performance up to 270% warmer than the leading insulation.
96405 LEATHER PALM PERFORMANCE GLOVES
SIZE: L
- Goatskin leather palm provides high durability for tough work
- 4-way stretch spandex on the back of hand for dexterity
- 40g 3M™ Thinsulate™ lining
